Kate's Korner

early learning + childcare center

// location

American Tobacco
Campus in Durham, NC

// size

6,370 SF

// phase

Completed

// job description

The previous two suites, a restaurant and a small office space, were combined and turned into a daycare with an after-school area - a "makerspace" deemed The Root by the client. Infants, toddlers, and pre-schoolers each have their own classrooms, while the STEAM-based makerspace is for children 6 to 12 years of age. Directly outside the suite a playground area was constructed.

Grace Place

multi-family, co-working, + retail space

// location

Durham, NC

// size

201 Units

// phase

On Hold

// job description

A new construction, 5-story, mixed-use building. Level 1 would include a co-working area to be used by both tenants and the public, the building's leasing office, a cafe, and a micro-retail space consisting of small booths and kiosks for local goods. Level 2 would include units as well as residential amenities, while Levels 3-5 would be units.

The project went through design documents until it was put on hold by the client.

Carolinas Fertility Institute

In Vitro Fertilization Clinic

// location

Cary, NC

// size

2,500 SF

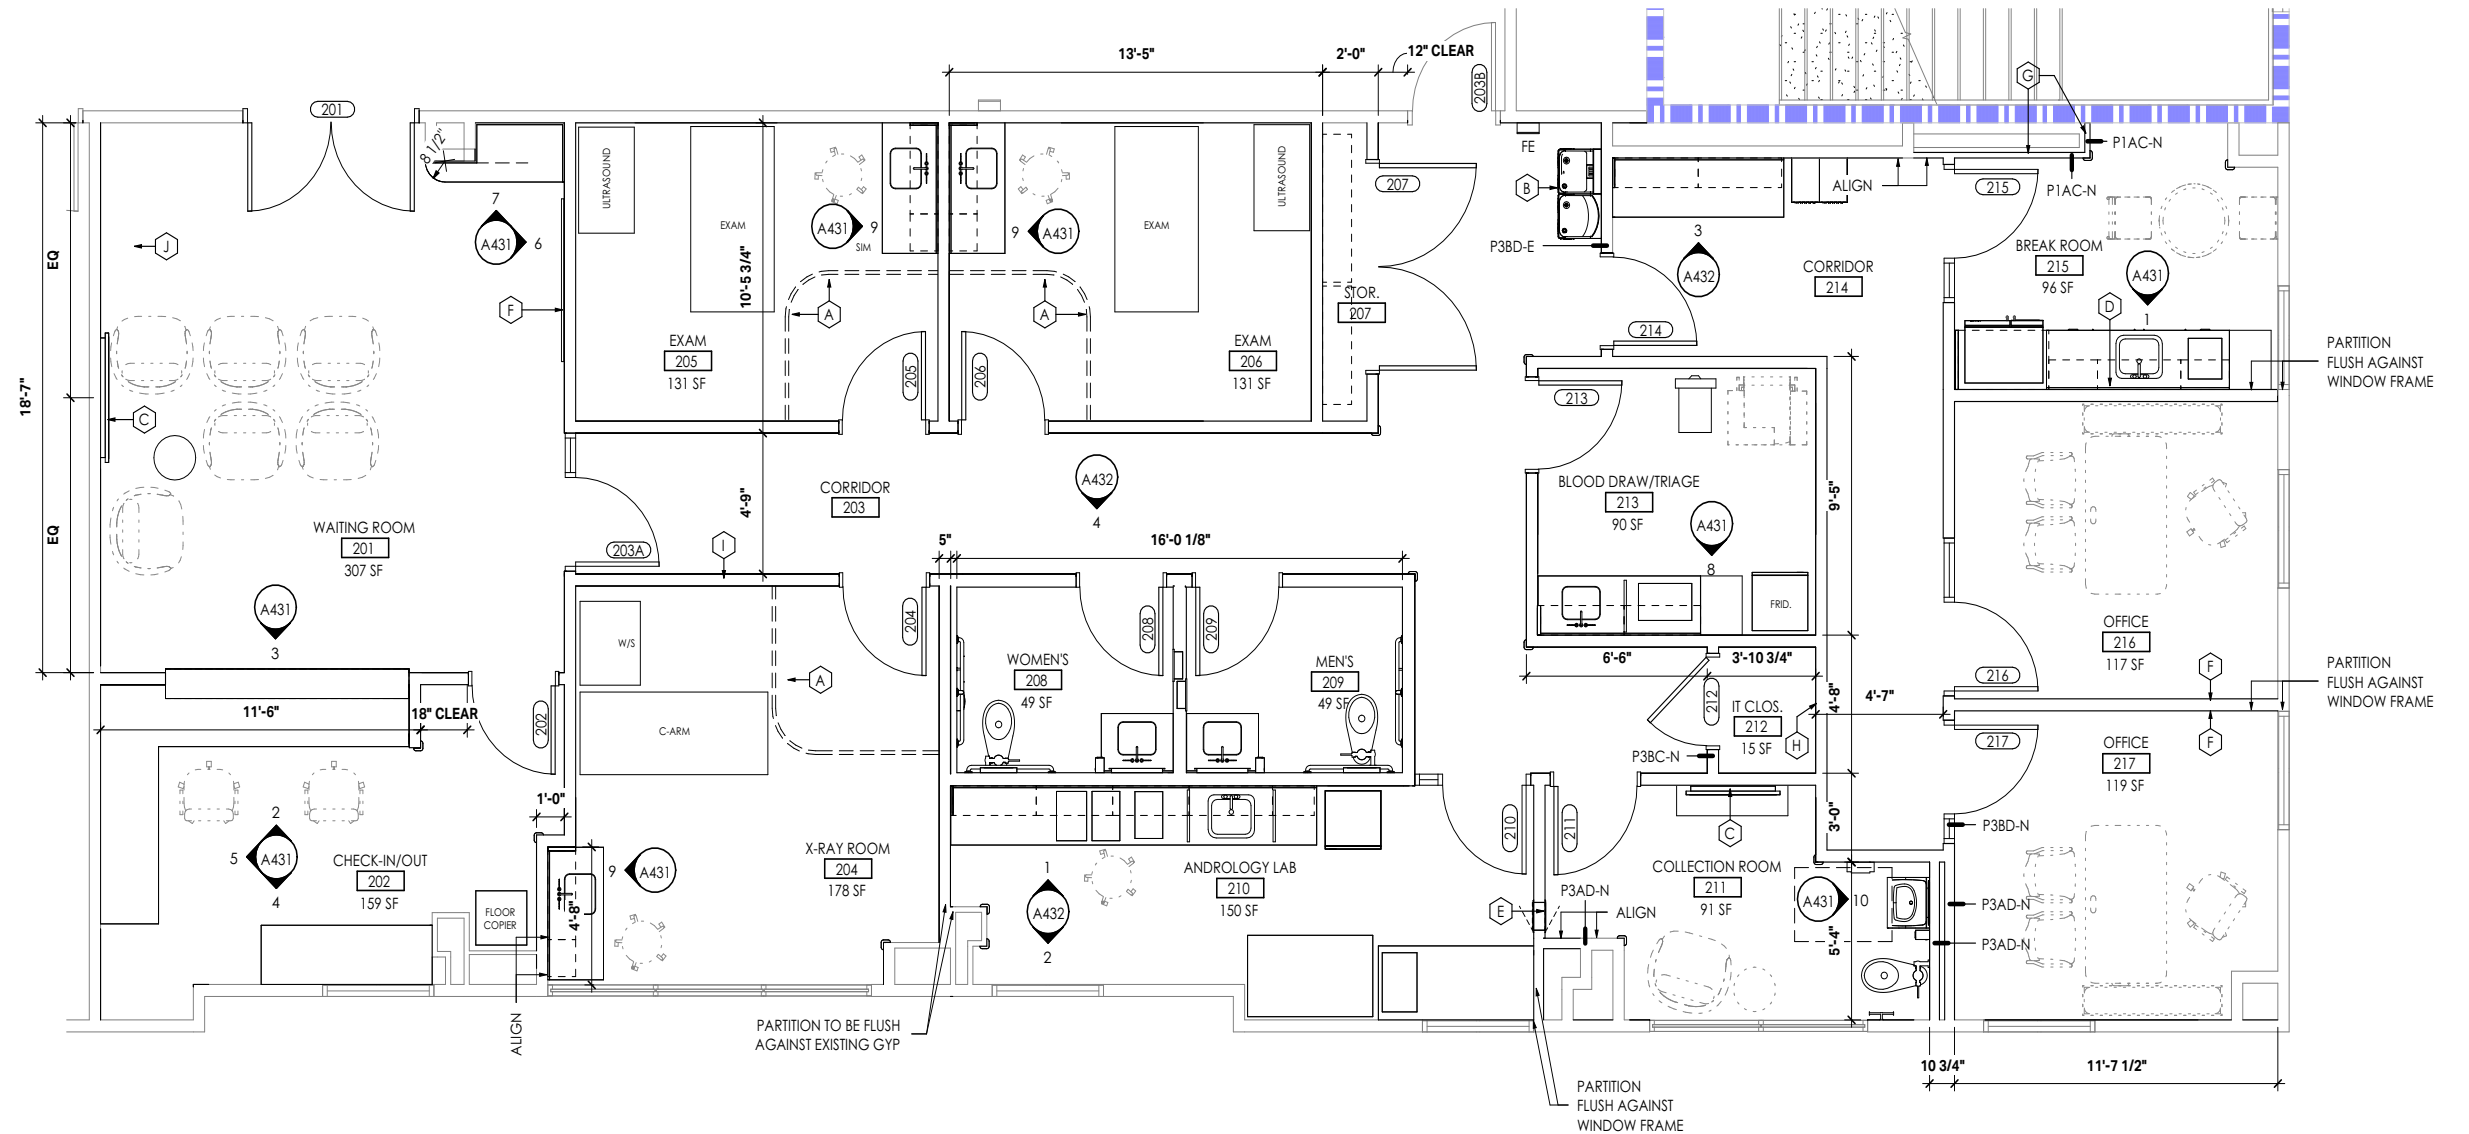

// phase

In Permit Review

// job description

This project is a renovation of a sleep clinic in an existing medical and office building. An expanded waiting and check-in area, along with upgraded finishes in all patient treatment rooms, help lend a sense of calm to patients undergoing stressful fertility treatments. Employee space is all located back of house.

The design team and client have worked so well together, there are now plans being created for additional locations in Asheville and Charlotte.

944 Washington

bar + restaurant

// location

Durham, NC

// size

2,850 SF Enclosed,
1,249 SF Rooftop Area

// phase

Preliminary Pricing

// job description

A new build, this bar and restaurant includes a first floor indoor/outdoor bar with a glass garage door divider, as well as a second bar on the roof deck. Eyelines to a large screen and stage on the open lawn took design precedence, while high ceilings and an abundance of natural light create an inviting space for indoor diners.
